+Product

+Store Starter

Transform any space into an automated storeroom.

+StoreStarter converts any space into a fully automated inventory control system. With unlimited SKUs, real-time tracking, and a portable design, it's a cost-effective solution for efficient inventory management.

KEY FEATURES

- ✓ **Portable & Flexible**
  Easily set up anywhere and move as needed.
- ✓ **Unlimited SKUs**
  Manage and track a wide range of products, incl. expiry and calibration.
- ✓ **User-Friendly**
  Simple login, scan, and go.
- ✓ **Battery Backup**
  Stay operational for 4-hours during power outages.
- ✓ **Custom Reports**
  Access real-time reports on stock levels and product use.
- ✓ **Durable Design**
  Built from heavy-duty steel for reliability and long-lasting use.

BENEFITS

Cost-Effective Inventory Control

Low upfront cost and high capacity make +StoreStarter the ideal choice for businesses.

Versatile Authentication Options

Offers flexible authentication, including badge readers and keypads, for secure, easy access.

Fast Implementation

With a simple plug-and-play setup, +StoreStarter is easy to install, getting you up and running quickly.

Cloud Integration

Syncs seamlessly with the +Product cloud system for 24/7 access to your inventory data from anywhere.
